ORMSBY COUNTY POLITICS BEGINNING TO WARM UP

Three Candidates for County Offices Announce Their Political Intentions Today

Politics in Ormsby county are warming up some and today three well known residents announced their candidacy for a nomination at the primary election to be held on the 6th day of September. All three are democrats and are known to the citizens of this city as men who are capable in every way to fill the offices to which they aspire.

The first in the line of announcements was Ed Regan, present sheriff of Ormsby county. Ed is of the opinion and so are his friends that he would like to serve the people of this community in the capacity for the next two years and will ask his party for reelection.

For us to say anything of Ed Regan would be repeating what everyone else knows of the man—that he is one of the finest officials that this county ever had, that he is as square as a die, shows no favoritism and handles the duties of his office in an able manner. He has been a resident of this county for so long that he has forgotten the date when he arrived and has a host of friends that any man might be proud of. The Appeal has refrained from doing any prophesying regarding the coming campaign but will take just one chance at Ed and forecast his election by as large a majority as ever was given to a candidate in this county.

Mr. Leslie Small, one of the best known citizens from this county at the last session of the legislature, today announced his intention of running for state senator on the democratic ticket and will be circulating his nomination papers before the week is out. Leslie Small is another local man who needs no introduction to the people of this city as he has spent the greater part of his life here, and is also a graduate of the local schools.

Mr. Small has had a great deal of experience in the making of the laws of this state, having represented both Ormsby and Churchill counties in the lower house of the legislature.

Mr. Small has been considering his candidacy for some time past and today heeded the importunities of his friends and made the announcement. In making his announcement Mr. Small stated that retrenchment would be one of the policies that he would advocate if elected and that Ormsby county properly represented in the senate would be his aim.

That Mr. Small is a strong candidate all will admit and he goes into the fight to win laurels both for himself and his county. We might prophesy again but instead will say that the former one goes double.

The third to present his name to the voters is Mr. Thomas J. Salter, assistant bank examiner of the state of Nevada, who aspires to represent Ormsby county in the State Assembly. Mr. Salter has been a resident of this city for some time and is widely known and has a host of friends who will help him make his fight. Mr. Salter is a member of the Nevada bar and a man of ability and character. He is also a democrat, and by the way, a good one, and will prove a strong opponent for the opposite party at the coming election.

Interstate Commerce Commission Hands Down Decision Today Which Means a Victory for the Nevada Railroad Commission and the People of This State. Rates Given are Lower Than Those Asked. Decision is a Knockout Blow to California and the S. P.

The following message received from the Interstate Commerce Commission containing synopsis of the decision in the Reno case filed today.

In the case brought by the Railroad Commission of Nevada against the Southern Pacific Company made public today, Interstate Commerce Commission condemns class rates from eastern points to Nevada points. Commission establishes series of zones across continent within defined territory and reductions in rates are as follows:

TO RENO AND EAST, TO, BUT NOT INCLUDING WINNEMUCA			
From	Present Rate	Rate Ordered by Comm.	Reduction
Colorado points	\$4.29	\$2.10	\$2.19
Kansas	4.29	2.30	1.99

Rates shown are in cents per hundred pounds on first class goods from and to the points shown. Rates on other classes have been reduced proportionately.

No order entered regarding commodity rates, same being left open for further consideration. However, the reductions in class rates are so great, nearly all commodities are affected by the order.

The figures given above show that the obnoxious back haul charge is completely eliminated and that Nevada is given better than terminal rates.

Commercially this is the greatest thing that ever happened for Nevada. The direct saving in freights will aggregate a very large sum, but the control which it will give our people of their own business is a matter of vastly greater importance. It can scarcely be estimated in dollars and cents. It means the commercial independence and upbuilding of the state. Wholesale houses can now be established anywhere along the line of the Central Pacific road and our people will no longer be forced to pay tribute to California. The rates on commodities are not changed by this order, but the reductions in class rates will force reductions on vast numbers of commodities. Besides, the San Pedro people will have to meet the S. P. rates and all Nevada will share in the benefits.

Loss by Fire at Genoa Will Exceed Thirty Thousand Dollars

Late last night the fire which destroyed over \$30,000 worth of property in the little town of Genoa was extinguished by the fire fighters who had worked like trojans from early in the afternoon. The fire was one of the hardest blows the little town, the oldest in the state, ever received and it is probable that it will never recover. By the destruction of the court house it is almost a certainty that the seat of county government will be removed to Gardnerville and even during the time the fire was at its selection of a new location.

The buildings destroyed and the estimates of loss are as follows: Poor house, \$600; Hansen saloon, \$2,000; Central hotel, \$800; residence of Sheriff Wyatt, \$2,000; Odd Fellows hall, \$2,000; Campbell's warehouse, \$600; Union Church, \$800; court house and jail, \$18,000; Wyatt's barn, \$1,000; Gray's blacksmith shop, \$400; Hansen's hall, \$1,400; Hansen's residence, \$1,000; Dr. Hawkins' orchard, \$600; Virgin's barn, \$300, and the old log cabin which was the first building built in the State of Nevada and whose value as a historical relic was priceless.

In a couple of cases the property was not wholly destroyed and the damage can be repaired and work will be started at once by those who lost their homes to rebuild.

No one was injured during the fire and for many reasons this is remarkable. Up to the time the Gardnerville fire department arrived on the scene only a bucket brigade coped with the flames and this was made up of as many women as men, who worked like trojans to save their home and those of their neighbors. When assistance at last arrived many of the women collapsed from their exertions.

The county of Douglas is the heaviest loser of all as a new court house and jail must be built. It is believed that the records of the county have been saved as they were all placed in the new concrete vault that was recently built in the court house. Considerable of the county funds were in the old safe in the treasurer's office and it is feared that the heat has destroyed the greater part of this. The loss in this respect will be known as soon as the safe is opened.

Nevada Will be Reimbursed For War Money Advanced to U. S.

Some time ago the Appeal told of an effort being made on the part of Governor Dickerson and Senator Newlands to have the United Congress allow the bill of \$12,283.04 owed to the State of Nevada for money appropriated by this state in raising volunteers during the Indian war. Senator Newlands introduced the bill and had it included in the general deficiency bill in congress. The bill passed both the house and the senate and has by this time become a law. The following communication was received by James D. Finch, secretary to the governor, today, from Senator Newlands' secretary and is self explanatory.

Dear Mr. Finch—On May 16th the governor wrote Senator Newlands about an item of \$12,283.04 due the

state by the finding of the comptroller of the treasury, to refund expenses incurred in raising volunteers. On May 12th Mr. Newlands wrote to me in the general deficiency appropriation bill, and that he would look out for it.

I now enclose a copy of the bill in question (H. R. 26730, on page 101 of which you will find the allowance made. The bill has passed both the house and senate and is certain to become a law. The appropriation was put in by the house committee on the estimate of the auditor for the war department, and no objection was made to it. I kept track of the matter through its various stages and Senator Newlands was on guard to see that it was not cut out.

Very sincerely yours,
MILLAD F. DUDSON,
Secretary

Gale Dangberg Buried Today

The funeral of Gale Dangberg, the 13-year old son of John and Mrs. Dangberg, took place this morning, interment being in Lone Mountain cemetery in this city. The remains arrived on the motor car this morning and were met at the train by friends of the Dangberg families. The cortege immediately proceeded to the cemetery where short services were held, the regular funeral services having taken place at Minden this morning before the remains were brought to this city.

Dance on open air platform Wednesday night.

FOREST FIRE

An extensive fire, visible Monday night from Reno, burned over an area three miles wide and eight miles long near Hobart mills and did thousands of dollars worth of damage. Many thousands of feet of cut timber were burned and immense areas of piled up timber and brush were made the food of the flames. Three traction engines used for logging were destroyed.

A force of 200 men were put to work to stop the advance of the fire, and after working twelve hours it was checked and gotten under control.

ROBERTS HOME

Attorney E. E. Roberts who has been spending some time in Reno, returned on the special last night.
